**Quality, Equity, Dignity**  
A Network for Improving Quality of Care for Maternal, Newborn and Child Health 

---

**Summary of implementation readiness**

1. National Grapnm  
2. Selection of learning sites  
3. QI management and response system  
4. QI coaching system and structures  
5. Measurement  
6. Orientation to districts and facilities  
7. National learning hub

**Core Demographic Data**

- Population: 168,365,141
- Fertility rate per woman: 1.7
- Maternal Mortality Rate (per 100,000 live births): 577
- Neonatal mortality rate (per 1,000 live births): 22
- Postnatal mortality (per 1,000 births): 41

**Coverage of Key interventions**

- Demand for Family Planning validated (%): 40.2
- Antenatal care of 4 or more visits (%): 51.7
- Skilled Birth-Attendance (%): 39
- Contraception Services Rate (%): 2
- Early Initiation of Breastfeeding (%): 33.2
- Exclusive Breastfeeding rate (%): 17
- Postnatal care to baby within 2 days (%): 14
- Postnatal care for mother (within 2 days, %): 42

**Examples from Implementation**

1. National Quality Improvement Approach
   - National Data from Nigeria DHS 2013, National Population Commission

2. Selection of Learning Sites
   - Orientation to Districts & Facilities
   - National Learning Hub
   - QI coaching
   - Clinical mentorship
   - Audits and feedback

3. QI Management and Response System
   - Orientation package on the above for learning sites
   - Orientation to learning sites/facilities
   - National criteria similar to State learning sites: National MNCH criteria similar to State learning sites and to the 3 senatorial districts in the State.

4. Orientation to Districts & Facilities
   - National MNCH quality improvement to be developed

5. Measurement
   - National monitoring framework for MNCH QoC, developed

6. QI Coaching System & Structure
   - Partner supported sites, focus on the time around birth
